

Format example: 356 x 252 mm

Adhesive film is a popular advertising platform, both indoors and outdoors. Popular uses include Traffic-Boards on buses, billboards in 18/1 format, display window stickers or floor advertising. We offer the right lamination technique for each adhesive film, making them long lasting and even more eye-catching. This is particularly important if the film is to remain in place for a long period of time or is to be used on vehicles or on the ground.

General Info's

- Digital printing 300 to 600 dpi

Materials

- profiscreen adhesive film 255g/qm

In order to obtain an optimum poster please send us your artwork only in digital form (+ proof). To ensure problemfree processing and for us to produce the best quality, please follow the instructions below.

Document:	PDF and all major DTP programmes, preferably with QuarkXPress, FreeHand, Illustrator, Photoshop, InDesign
Colour mode:	CMYK
Colour space:	ISO-Coated v2
Image resolution:	300 dpi, with 100%positioning in the respective system format
max. coating flows:	320%
Medium:	CD-ROM, DVD
Contract proof:	to be made available if possible

Order processing

We will start your job as soon as we have received your order and artwork. If you do not provide us with a proof using the colors you desire, we will produce one and send it to you. As soon as we have your approval, we will begin printing your posters and send them to the outdoor companies specified by you. Typically, we require 5 working days to complete your order.

So just send your data and let us do the rest to get your add ready. We are looking forward to giving you our assistance.
